 **Kinetico®**
home water systems

Maximum Flow of Clean, Filtered Water
24 Hours a Day, Every Day

Simple, Reliable and Economical
Operation

Certified Performance

Installation and Service by Trained Water
Treatment Professionals

What Makes The Kinetico 2060f and 2100f Different?

1. **Non-Electric Operation.** Reliable. No timers or computers to set, adjust, repair or replace.
2. **Overdrive Enhanced.** Both tanks are in service simultaneously. Increases performance, efficiency, flow rate and media life.
3. **Metered, Demand Service.** Eliminates guesswork, water waste and problem water breakthrough.
4. **Twin Tank System.** Unlimited supply of clean, filtered water. Enables system to regenerate with clean, filtered water.
5. **Large Porting Size.** Perfectly suited for larger plumbing found in many homes. Up to 1 1/2 inch.
6. **Effective Filtering Capabilities.** Assures continuous, high quality, filtered water. Protects plumbing, appliances, fixtures and clothing.
7. **Choice of Highly Effective Filtration Media:**
Exclusive Macrolite® Ceramic Media for removal of very fine particulate matter to protect plumbing, appliances, fixtures and clothing. Activated Carbon for dechlorination to improve the taste and eliminate odors from water. Dechlorination reduces drying of hair and skin. Also filters sediment for cleaner water. Calcite for neutralizing water's pH level to eliminate blue-green staining and corrosion of plumbing and appliances.
8. **Efficient Use of Water.** Compact media beds require less backwash water. Low water consumption.
9. **Corrosion-Resistant Valve and Tanks.** Long lasting. Can endure harsh environments.
10. **Clean Water, Countercurrent Backwashing.** Increases product efficiency and water quality.
11. **Automatic Operation.** Virtually no maintenance or guesswork.
12. **Outstanding Warranty.** Dependability and peace of mind.
